

## Comfort Tubing Wrap for CPAP & BiPAP

Tubeze Comfort Tubing Wraps are designed to help improve comfort during sleep and help prevent rain-out by lightly insulating CPAP/BiPAP hoses and tubes. Two distinct styles of Tubeze are available: 1) Tubeze Deluxe Comfort Tubing Wrap which offers a higher level of insulation and is manufactured from a soft nylon/polyester fabric with a polyester fleece lining for insulation; and 2) Tubeze Economy Comfort Tubing Wrap which is manufactured from our exclusive Amerisoft fleece fabric. Nylon cover fabric of the Tubeze Deluxe Comfort Tubing Wrap (only) is water-resistant and bacteriostatic and meets or exceeds the flame retardant requirements of California Technical Bulletin 116. Both versions of Tubeze Comfort Tubing Wraps feature a hidden zipper extends along the full length of the tube so that the wrap is exceptionally secure and easy to put on and take off without unnecessary stretching or sliding. Easily washable, Tubeze Wraps help to hide unsightly medical tubing beneath a fashionable fabric cover. Fits standard 6' (72") CPAP and BiPAP tubing. Sold by the each.
